

IOWA PUBLIC INFORMATION BOARD MEETING – SEPTEMBER 2015

Meeting. The Iowa Public Information Board (IPIB) met September 17, 2015, in Des Moines. The Board took the following actions:

- Voted in favor of accepting complaints filed by the Burlington Hawk Eye newspaper and the family of Autumn Steele, the victim of a January 6, 2015, shooting that occurred in Burlington, Iowa. Steele was killed during the response to a domestic disturbance call answered by the Burlington police. The Steele family is requesting access to body camera video taken at the time of the response, in addition to other investigative police records regarding the matter. The Board will now move forward to seek an informal resolution with all parties involved.
- Voted in favor of readdressing a probable cause report regarding a request for publicly shared documents from a meeting of the Waukee School District. The district held a public meeting earlier this year regarding school boundary redistricting matters that involved the presentation of public documents. The complainant states she has requested such records from this meeting, but that these have since been destroyed. The Board voted to further investigate this matter and work with both parties to seek a resolution.
- Discussed the following office administrative items:
 - Visitor traffic on the Board's website has increased by 70.0 % compared to the previous month.
 - The Board also agreed to change office financial status briefings from monthly to quarterly.

Next Meeting. The next meeting of the IPIB is scheduled for October 15, 2015, in Des Moines.
